## EDGE BINDING

Tailor-make your look by adding an edge binding to your shade. For a subtle effect, choose a binding in the same tone as your shade pattern, or add drama with a bolder contrast.

When selecting continuous loop control, edge binding is strongly recommended to prevent fraying of the material during shade operation over time.

Edge bindings also provide durability and structure, ensuring a beautiful look for years to come.

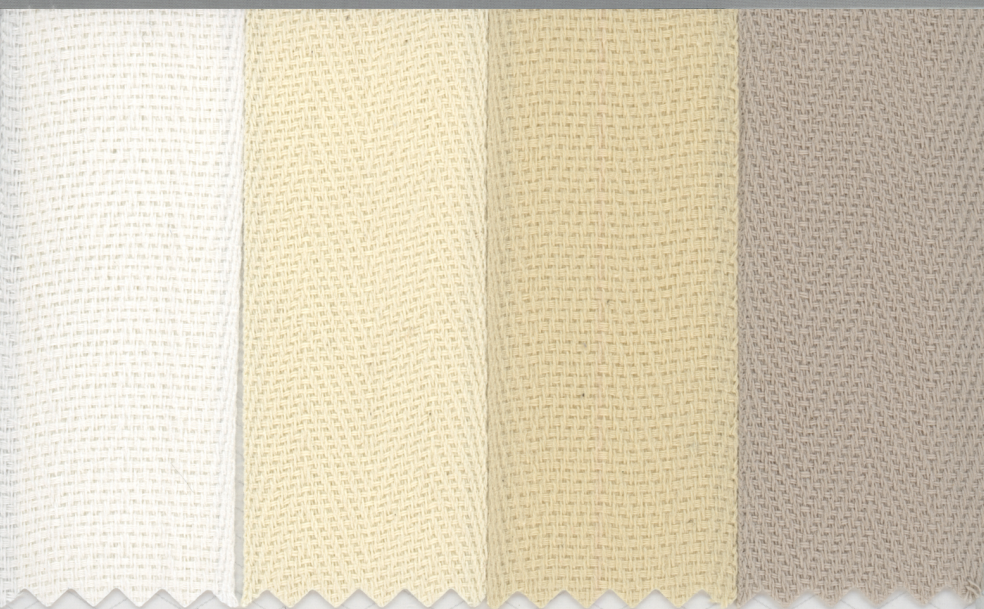

## TWILL EDGE BINDING

Twill edge binding offers a neat accent and features a finished folded edge.

- Size options include  $\frac{5}{8}$ " or  $1\frac{1}{2}$ " width.
- Available on all styles.
